UCCE Migration from Informatica to SSIS

IT Company

Project

UCCE Migration from Informatica to SSIS

Client

Leading IT Company

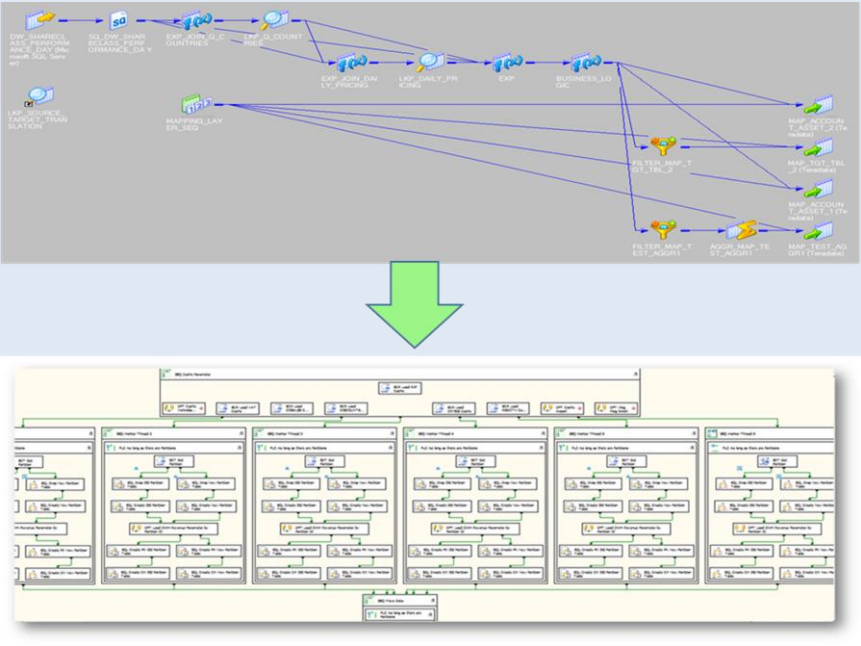

Summary

Client needs to migrate the ETL tool from Informatica to SSIS to prepare new Solutions with enhancements and in order to make a better performance and to reduce the cost efficiency and also to integrate with the Microsoft Sequel Server Tools.

Challenges

- The client had a challenge in performance management and inventory system and wanted to migrate from ETL from Informatica to SISSS for better solutions.
- Improve performance and reduce cost efficiency.
- Integration of Microsoft SQL server tools.

Visual

Solution

- Gathered Infrastructure from the different environments for the complete setup to build the solution project.
- Identified mapping that can be decommissioned or modified to contribute towards building a new SSIS solution.
- Reduced 7 workflows to 5 SSIS Packages.
- Implemented Informix as source database in ssis for the workflow enhancements.

Results

- Average ETL performance increased 30%.
- New SSIS ETL package process will ensure better performance of ETL and Reports.
- Report performance increased by 80%.
