

# Oracle ODI BI Apps Implementation

Enterprise Company

## Project

Oracle ODI BI Apps Implementation

## Client

Leading Enterprise Company

## Summary

This was not a straight forward BI Applications. It included maintenance of structured patch file extraction. Using OBIEE 11g the extraction is fast and allows quicker deploy time enabling role based views to all management team with more flexibility.

## Challenges

There were many challenges involved which needed a thorough due diligence and expert knowledge on only in BI domain.

1. Specifying the exact OBIEE 11g folder for Installing the BIAPP 11.1.1.8.1
2. Folder structure for extracting Patch Files

## Solution

- While Installing the BIAPP 11.1.1.8.1 we need to specify the exact path where OBIEE 11g is installed.
- We need to maintain a proper folder structure for extracting Patch Files, Apply proper patches with equal intervals (Like Executing - Perl script, ATGLite, FSMLite).

## Results

- 50% r It's a packaged application are quicker time to deploy, less overall cost, an enterprise view of data, role-based views for all employees, and built-in best practices.
- It also provides the flexibility to introduce and implement the analytics one module at a time.
